EVENING EDITION.

ATLANTA, GEORGIA::::::MARCH 25.

THE LORD HAVE MERCY ON THEM.—Dr. Bard has several times said—Gov. Brown, Col. Hulbert and the *New Era* elected Gov. Bullock.

The Lord have mercy on them.

☞ The enrolling clerk of the House of Representatives, who recently made a blunder of a million or two of dollars in favor of the whisky ring, has already made another blunder of the same kind. That fellow bids fair to blunder into an enormous fortune.

☞ Schenck's bill, that lately passed Congress, is called a bill to strengthen the public credit. How much does a debtor, who doesn't and can't pay his debts, strengthen his credit by promising to pay one-half more than he is under any obligation to pay?

☞ Although the dentists of Japan have advanced so far as to prepare sets of artificial teeth fitted to the irregularities of the gums and palate, and supported by atmospheric pressure, they extract teeth in a most uncivilized way, by pulling them out with the fingers, after having loosened them by blows with a mallet.

☞ The Jews of Hungary and Transylvania are making a bold and united effort to procure an improvement of their rights and privileges with regard to the practice of their religion. These people number 775,000 and they are formed in regular districts. They ask the liberty of educating their children and conducting their ceremonials of worship with the freedom accorded to others. They have held one congress, the results of whose deliberations have been presented to the King, and will hold another soon. It will consist of 86 of their highest intellects.

☞ A curious disease prevails on the West Coast of Africa especially on the Gaboon, which consists in an irresistible inclination to sleep. No pain seems to be experienced; but the patient stumbles readily, his step is tottering, sense of feeling seems to be wanting, and objects used as a support are grasped very unsteadily. The consciousness does not seem to be diminished, and the breathing and digestion are normal. When the patient is awaked, he returns again into a deep sleep in a very short time. The disease does not yield to any remedies, and generally ends in death. Its precise character has not yet been ascertained with certainty.

MOVING RIGHT.—A correspondent of the Journal and Messenger says that a mill erected in Wilkinson county by S. W. Gleason, for Mr. J. F. Burney, is the best country mill he ever saw. The engine a portable fifteen-horse power, which is ample for successfully running a 46-inch circular saw, a grist mill, and a sixty saw gin. It is in operation, sawing 5,000 feet of lumber, or grinding 100 bushels of corn, or ginning six bales of cotton per day. Cost about $2600. Mr. Burney states that he may possibly, in a short time, put in spindles and convert the cotton grown upon his plantation into yarns, instead of throwing it upon the market in its crude state. Mr. Wm. Dixon, of that county, has also put up a similar mill.

UNSUCCESSFUL ATTEMPTS TO ELECT A SHERIFF.—In November last an election for Sheriff was ordered in Wilkinson county. The Democratic candidate was elected by a small majority. The Radical Ordinary of that county decided the election null and void on account of some alleged informality, and ordered another election in December. The same result attended the second race. A third election was ordered in January, and the Democratic candidate elected by over two hundred majority. The returns were sent to Gov. Bullock, who wrote to the successful candidate, requiring him to answer several interrogatories in regard to loyalty, etc. Thes were answered satisfactorily, proving by the reconstruction acts and acts supplemental thereto, that he was qualified, but still no commission has made its appearance.

GOSPEL TRUTH.—The Union Springs Times utters sound truth in the following: "One thing is certain to mathematical demonstration. The planter who exhausts his means and labor to make only cotton runs all risk. He may have a short crop, while others are blessed with large yields, and thus be forced to take a low price. He may then have to pay out of the disappointedly small amount realized from the sale of his cotton speculatively high prices for corn and bacon, without which he cannot live. The chances will then be that he falls in debt. On the other hand, the farmer who raises plenty of corn and his own meat is perfectly safe, even if the cotton proves a miserable failure. He can live. He is free of debt and all the harrassments that accompany it. It will be most happy if this county next fall can boast that she has her own food at home; it will be little less than criminal if, by neglecting the grain and vegetable crops, she is found dependent on foreign supplies.

United States Treasury.

During the week ending March 20, 1869, there has been received at Printing Bureau of the Treasury from the Department $598,500 in fractional currency.

The shipments for the same period have been: National banks and others, $283,099; Assistant U. S. Treasurer at Philadelphia, $200,000. United States Treasurer, New York, $200,000. Total, $683,099.

The Treasurer of the United States holds in trust at this date, in Government securities for circulating notes of National Banks, $342,690,200, and for deposits of public moneys, $32,710,350; making a total of $375,400,550.

National bank currency issued during the week, $100,800; total issued to date, $313,801,736. From this is to be deducted the following amounts, viz: mutilated bills returned, $12,420,675, and for notes of insolvent banks redeemed by the United States Treasurer, $1,026,221, leaving in actual circulation at this date, $299,854,840.

The amount of fractional currency redeemed and destroyed during the week was $421,921.79.

Mere Mention.

In Floyd Superior Court on Tuesday, the case of the creditors of W. R. Smith, dec'd, vs. Mrs. Anna E. Smith, his widow, was tried. The case was this: Mrs. Smith, selected in lieu of her dower such an amount of cash as the Commissioners would allow her. They awarded her $15,000. The creditors sued for a reduction, and were represented by Hon. B. H. Hill. The jury sustained the award of the Commissioners. The case goes up to the Supreme Court.

M. M. Moore is a candidate for Clerk of Council in Columbus.

The ship Nebo arrived at Brunswick on the 21st, with over six hundred tons of "T" iron for the Macon and Brunswick Railroad.

Fig Island, below Savannah is occupied by pets of the "buro," who have erected shanties, and propose to cultivate a rice crop.

Henry Hood, a venerable and upright citizen of Bartow county, died at his residence on the 20th, of pneumonia.

The rush of strangers to Augusta still continues. One hundred and forty-eight guests sat down to dinner at the Planter's Hotel on Sunday last.

The new theatre in Charleston is a fixed fact.

A negro man named Poshus Mackall, living at Lawton, Station 12, on the Atlantic and Gulf Railroad, on the 20th, administered poison in roasted potatoes to two colored children, which produced death in thirty minutes. He did it to save the expense of supporting them—they being the children of a widow he was living with. He was arrested and carried to Savvannah. Where is the sensation telegraphist of Atlanta? Can't he send on this as another Ku Klux outrage?

A large number of Northern people recently left New York to find homes in Georgia, South Carolina and Florida.

The funeral procession of Col. L. D. Lallenstedt, on Tuesday in Augusta, is said to have been the largest ever witnessed there.

Will D. Bard, collector of Internal Revenue at Augusta, is being prosecuted for libel in Columbia Superior Court, by V. M. Burnes, of that county, who was a sub-collector.

Robert Hardin shot and killed Mr. Lycurgus Reese, at Appling, Columbia county, on the 22d inst., in a drunken brawl. Reese leaves a wife and nine children. Hardin was arrested and committed to jail. Another Ku-Klux outrage for the mendacious telegraphist of Atlanta?

The remains of John H. Slade, a member of the Columbus Guards, second Georgia Regiment, were interred in the family burying ground at Columbus, on the 23d, with imposing ceremonies. A number of his old comrades-in-arms paid the last tribute of affection to his memory.

The editor of the Augusta Press has been shown one of the most singular developments in the egg line which has ever challenged an examination. It consisted of a double hen egg, united by a ligament of skin pecular to eggs when stripped of the shell. One of these Siamese twin forms contained the white, and the other the yolk, each minus the outside shell, and entirely separate from each other, save the link of skin, about two inches in length, which bound them together at the ends. This style of egg is certainly a great improvement, and if our fowls could only be persuaded to lay them at the current rates, it would be a vast saving to house-wives and others interested in the preparation of articles requiring a separation of the white and yolk of eggs.

In Columbia county farming operations are very backward. In some sections extensive preparations are being made for a large cotton crop, but generally full crops of grain will be put in the ground.

The regular time for holding the Congressional elections in Georgia, under the new Constitution, will be the Tuesday after the first Monday in November, 1869.

A mechanic in Athens is constructing a velocipede.

A resident of Augusta while riding out to the Sand Hills, jolted his pistol out of his pocket. In attempting to catch it the pistol went off, the ball striking the horse in the back just in rear of the saddle. The horse lingered for a day and died.

The election for Municipal officers of the town of Milledgeville comes off the second of April.

The planters of Wilkinson county are pitching heavy cotton crops.

No new case of meningitis has appeared in Sandersville since the 16th.

The daily Southern press is in the habit of giving Northern magazines from two to five dollars worth of editorial advertising for twenty-five cents worth of magazine.

Gen. Joe Wheeler is living near Courtland, Ala., and says the shovel and hoe is his politics.

Refined petroleum is said to be a sure cure for vermin on cattle.

Georgia sweet potatoes are for sale in Philadelphia, but so high priced are they that no one will buy them.

Dr. W. A. Hooten has removed his infirmary for the blind, from Cotton Hill to Atlanta.

The town authorities of Sandersville have exiled goats and sheep from the town.

A case is now pending in the Houston Superior Court, on the matter of enticing a hand from his employer after a contract has been made. Suits for damages have been brought in several cases in the State. Sympathy is universally for the plaintiffs, and the wish generally expressed that the defendant will be made to smoke for his conduct. The case in Houston is attracting considerable attention among the planters of the country, as it will be taken as a precedent.

A Catholic fair will be held in Macon, April 5th.

VEGETABLES are dried in Holland for preservation by placing them in a large box with several shelves in it, on the upper side of which is an exhauster, which carries away the air. The warm air is introduced through an opening into the lower part of the box, the quantity being regulated by a valve and forced through, thus carrying off the moisture of the vegetables very rapidly.

ASSOCIATED PRESS DISPATCHES

FROM WASHINGTON.

CONGRESSIONAL.

WASHINGTON, March 25.—SENATE.—Hamilton, of Maryland, seated.

HOUSE.—Mississippi bill postpoded until after the morning hour.

The Reconstruction Committee had no meeting.

The Louisiana election case was heard. No action.

In an absolutely authenticated interview between Grant and the Mississippi delegation, urging Grant's assistance in passing the pending bill, Grant doubts whether the bill will restore peace to Mississippi.

Grant favors appointments by military Governors with usual mission of the Constitution with separate vote on objectionable features, some of which he says probably would, and perhaps should be defeated.

Mr. Johnson's physician left for Greenville in response to a dispatbh announcing Johnson's dangerous sickness.

Young's wives have reached Chicago.

The Governor of New Jersey, in his message argues against ratification. Rhode Island postponed action; Indiana returns opponents in special election.

Boutwell wants legislation for redistribution of the national currency.

MOBILE, March 15.—No races to-day. Postponed till Saturday.

MADRID, March 25.—The Committee appointed by Cortes to adopt a constitution monarchy, is as follows: King's reign eighteen years; Senators and members of Congress thirteen; church and State separate. Cortes passed the conscription law.

Telegraphic Markets.

NEW YORK, March 25.—Stocks steady, dull. Money steady at 7. Exchange 8¼. Gold 1 31⅛. 1862s, 18¾. North Carolinas, 60; new 57¼. Virginia ex-coupons, 56¼; new 60. Tennessee ex-coupons, 65¾; new 64¼.

Flour 5a10c better, for low grades. Wheat quiet, unchanged. Corn unchanged. Pork firmer; new mess, 31 15a31 87½. Steam lard heavy; barrels 18¾a18⅞. Cotton steady, 28¾a29. Turpentine drooping, 50. Rosin dull. Freights quiet.

LIVERPOOL, March 25, noon.—Cotton active; prices unchanged; sales 18,000 bales; sales for the week, 63,000 bales; exports 8,000 bales; stock 258,000 bales, of which 116,000 bales are American. No market to-morrow.

Afternoon.—Cotton not quiet so active; stock afloat 417,000 bales, of which 160,000 bales are American.

Washington News.

Special to the Louisville Courier-Journal.]

WASHINGTON, March 23.—Congress was occupied to-day with routine legislative matters. The Senate devoted a long session to the bill amending the judicial system, and finally passed it. The bill provides for an additional Judge of the Supreme Court, and nine additional associate judges. There is some doubt whether the measure goes through the House.

THE CIVIL TENURE BILL

was recommitted to the Senate Judiciary Committee, according to the caucus decision of yesterday, and a modified bill will probably be reported to-morrow. It is established that nothing but a simple repeal can pass the House.

Gen. Butler, in a debate to-day, admitted that he would shortly introduce a bill to simplify the mode of removing political disabilities. He was, however, very guarded in his statements, remarking that he wanted these people restored on the basis of loyalty and fidelity to the Union, and true repentance for their sins. There is some curiosity to know how this true repentance is to be demonstrated.

BULLOCK AND GEORGIA.

Governor Bullock, of Georgia, is here working actively with the intense Radical faction to tear up the present government in that State, and have Congress remand it to a territorial condition. Of course Bullock is to be the head, with unlimited power of appointment and removal. Another point he is striving for is to be empowered to declare martial law over any portion of the State, so as to run the State machinery after the Brownlow style. The Georgia bill is set for Thursday. It is certain that that portion of the old bill declaring the acts of the late Georgia Legislature inoperative, null and void will be embraced in the new one to be submitted by the Reconstruction Committee.

The Treasury Department is in receipt of the information that the United States Marshal for Georgia, has absconded with $100,000 of the public money.

SPECIAL ELECTION—DEMOCRATS HAVE IT ALL THEIR OWN WAY.

[Special Dispatch to the Courier-Journal.]

EVANSVILLE, IND., March 23.—The election for a Senator and two Representatives to the State Legislature, passed off very quietly to-day. The Democrats had everything their own way. In the afternoon an attempt was made to get out an opposition ticket with the names of Asa Iglehart for Senator, and J. A. Lemcke and Isadore Esslinger for Representatives; but, although a few tickets were printed, the movement was abandoned. The vote in this city is very light, not quite one-third of the vote polled last fall having been cast. Maj. Harris, a big buck negro, received a few votes for Senator. Our advices from Posey county report 500 votes for Carnahan, Democrat, in Black township. No opposition.

A CINCINNATI EDITOR GOING TO ATLANTA.

Special Dispatch to the Courier-Journal.]

CINCINNATI, March 23.—Mr. John B. Jeup, hitherto leading editor of the Volksfreund, the German Democratic paper of this city, has sold out his interest in that establishment to the other partners, and it is said that he will remove to Atlanta, Ga., to act as the commissioner of foreign immigration for that State. Mr. Victor Shilly will be the future manager of the Volksfreund.

NEW YORK, March 23.—It was decided in the Supreme Court to-day in the case of a stolen gold certificate that the rightful owner could claim his property wherever he found it, and that innocent purchasers had no redress. It was claimed on the trial that the purchasers had notice that it was stolen, and the purchaser showed that these certificates passed from hand to hand by delivery and that there were $350,000,000 afloat; that one bank took in two millions a day, and that there was a very marked difference between gold checks and gold certificates, but this did not avail against the claim of the rightful owner.

☞ Driving a flock of geese into a barnyard is as high an order of quill-driving as most Radical editors are fit for.

Our New Job Office.

We have an entire new JOB OFFICE, embracing presses, types, borders, cuts, rules and everything pertaining to a complete outfit.

We are prepared to fill all orders for plain, fancy and ornamental work, in the neatest style, on the shortest notice, and at the lowest living rates.

We respectfully solicit the patronage of our friends and the public generally.

THE 15TH AMENDMENT.—The last election in Indiana indicates that the people of that State are strongly opposed to the adoption of the proposed amendment.

Indiana is willing to put negro suffrage upon us, but can't take it for herself.

There is not much golden rule in that.

But then, perhaps we ought not to complain.

Blessed are they which are persecuted, etc., etc.

Let us wait patiently for our reward.

THE TENURE-OF-OFFICE ACT.—From the telegrams this morning, the contest in the United States Senate over the repeal of said act, has resulted in failure for repeal. The suspension as indicated cannot please the President, yet he may not contend farther, as he is nearly unshackled. We will probably soon see a general removal from Federal offices. Now comes the tug of war—the *outs* after the *ins*. The President will find the army of office-seekers as troublesome as some other armies he has had to manage,

President Grant's appointment of three women as Postmisstress—(the word is abominable, and wouldn't *Postofficers* be better?)—has attracted to Washington a rush of female office-seekers. Some of them are in pursuit of places as internal revenue officers, others as Custom-house functionaries, and others in other branches of the service. It is to be hoped the office-hunting mania will not spread among the women.—*N. Y. Times.*

Let it "spread."

Has not the "mania" as much right to "spread" among "the women" as the men.

Let the "mania" rip.

Let no pent up Utica contract its powers.

It is as universal as radicalism.

THE CONGRESSIONAL ELECTION.—We see several Congressional Districts are nominating candidates for Congress. This is "Love's Labor Lost," as Bullock will, in all probability, pocket the bill.

THE MONGOLIAN RACE EXCLUDED.—In the House of Representatives recently, Mr. Johnson, of California, moved to suspend the rules for the purpose of introducing a resolution declaring that the House in passing the joint resolution proposing the fifteenth amendment to the Constitution did not mean that Chinamen and other branches of the Mongolian race should be allowed to vote. It was negatived by yeas 42, nays 106.

SAUCE FOR THE GANDER.—The Bishop of New Jersey has refused to lay his hands on the chignons of ladies at the Communion railing.

A lady of this city wants to know, for the sake of information merely, whether or not the same applies to gentlemen who wear wigs?

BUTTER.—The Editor of the Athens Watchman complains of the character of the butter brought to that market. Cotton seed, hen feathers, oat chaff and other foreign articles, are sometimes added. He purchased some a few days since which was flavored with Kerosene oil!

CONTESTED ELECTIONS.—The House of Representatives have passed a resolution that in all contested election cases referred to that committee in which it shall be found that either of the contestants is ineligible to a seat, on account of his inability to take the "iron-clad" oath, the committee shall at once report the ineligibility to the House, and the disqualified contestants shall not receive any compensation for expenses incurred in contesting the seat.

AFTER THE DEMOCRATS.--Paine, of Wisconsin, has introduced a bill in Congress to regulate the manner of holding elections for representatives and delegates to Congress, which provides that the election of any person as a representative or delegate to Congress who is unable to take the "iron-clad" oath shall be null and void, and the person receiving the next highest number of votes shall be entitled to the seat.

IMPROVEMENTS.—The traveling correspondent of the Augusta Chronicle and Sentinel says that nothing is more obvious than the improvements in progress along the line of the Georgia Railroad. At almost every depot the gavel, or hammer, may be heard, and neat and costly storerooms and dwellings are going up, giving an air of life and activity to business. At Thompson, Union Point, Rutledge, Social Circle and Conyers, this is eminently the case. These places have grown to be villages and towns, with intelligent and thrifty populations, and are controlling a large proportion of the trade of the surrounding country. This results not only from the revolutions of society but the advantages of this section for health. With the present progress in a few years the Georgia Road will boast of more wealth and intelligence along its line than any road in the State.

Will the Southern Press give me a small space to do justice to a Southern institution which has been grossly slandered, and the true condition of which a large number of people in this section are interested in understanding.

It would seem that no enterprise, however meritorious, organized at the South and managed for the purpose of retaining money in the South, can escape the unscrupulous assaults of certain black-mailing sheets published at the North. In a recent issue of the Insurance Times, published in New York City, there appears an article of sixteen lines, in which short space, there are one dozen *wilful, malignant, unmitigatad falsehoods*. That a sheet which attacks and retracts as suits its pecuniary interest, should assail the Southern Life, was to be expected, and the article would pass unnoticed, but for the fact that agents of other companies, doing business in the South, are endeavoring by its use, to prejudice the public against this Institution. The almost unparalleled success of the Southern Life, taking from these agents much of the business which they have hitherto monopolized, has induced them to resort to all means *foul* as well as fair, to defeat this Company in its patriotic and praiseworthy efforts.

At first, they charged that it was a Northern organization battling under false colors, and when the honorable names which make up its list of Stockholders are published, they assert that some of these are used without authority. This is *false. Every* name published as such, is a *bona fide* Stockholder of the Company. They circulate the charge of that unscrupulous sheet, the "Times," that this company is "staggering under the weight of its inconsiderable business." Is this true? By authority of the facts furnished by the Mass. Insurance Reports for 1859-1865, I assert that the Southern Life did more than ten times the business the first year of its existence, than was done by the "Mutual Life" of New York, or the "Connecticut Mutual" of Hartford, in the first year of their existence; and these are the two largest companies in the United States. I assert moreover that the Atlanta Department of the Southern Life, now organized for less than one year, has up to the date already effected more insurance than was effected by the "Mutual Life" of New York, in the *fourth* year of its existence, and more than the amount effected by the "Connecticut Mutual" in the *seventh* year of its existence. Will any agent who is circulating these lying articles of the "Times" dare deny this? Yet its business is inconsiderable! The truth is that its great success is *the* harrassing objection with these agencies of other companies, and our rapidly enhancing prosperity must continually give them still more abundant and all sufficient cause for assailing our institution.

But the Southern Life is charged with being about to fail and refusing to pay its losses. These are falsehoods. The sworn statement of its officers evidences a larger ratio of assets to liabilities than any of the leading companies of the North doing business in the South. It has a capital of over $239,000, and assets to over $400,000. It has paid every legitimate loss (over $140,000) that it has ever sustained, and its assets have more than doubled since its organization. If such men as hold its stock and are identified with its prosperity will not settle fairly with the widows and orphans of the South, will the people of this section expect fair dealing of those of whom they know nothing, and some of whom boast that they made by the war many millions by cancelling polices held by *Rebels* or "*Rebellious masters*," as they jeeringly call them?

It (the Southern Life) "has had its notes protested, has withdrawn from Mississippi and a general agent has abandoned it in disgust." Wholesale falsehoods these in every part and particular. No note of this company was ever protested—it has not withdrawn from Mississippi, but is doing a large and increasing business in that State, and the general agent referred to, is now in correspondence with the Company desiring a reconnection with it.

In this department, where the names of its stockholders are known, they admit *it* is sound, but the *Memphis Department*, who is responsible for *that?* In the Memphis Department, where the stockholders are recognized among the best citizens and ablest financiers of the country, they admit *it* is safe, but the *Atlanta Department*—who is responsible for *that?*

They circulate a report made by a committee of the Kentucky Senate, doing great injustice to this company, but will they circulate the supplementary report of the same committee explaining the cause of the first, (and fully making amende), or will they give currency to the following extract from a letter of Col. P. H. Leslie, one of said committee, in which he says: "I feel to know that the Southern Life is *sound beyond a doubt*, and will gladly cooperate in doing it justice—that ample justice which would have been done in first report, if all the facts had been before the Committee."

The Southern Life has no war to make upon other companies, but will continue to urge the people of the South to retain their money at home, and cease to send so many millions to other sections for Life Insurance. It will still offer as safe an institution, as solidly founded, and as honestly managed as any in the United States. It will at least, never boast of millions of accumulations made by cancelling policies held by Rebels, or "Rebellious masters."

J B. GORDON,
President Atlanta Dep. Sou. Life Ins. Co.

☞ Cotton bales this year, it is reported, contain from four to five per cent. less weight of cotton than they did in 1867, though the gross weight remains the same. The difference is accounted for by the heavier quality of the bagging and roping which are used in making up the bales. It is asserted that this device, which gives a profit of about fifty or sixty cents per bale (the difference between the price of the cotton and the material which envelops it) will reduce the estimated aggregate weight of the crop at least one hundred thousand bales.

☞ An old citizen of Baltimore said the other day, "the wealth of Baltimore has changed hands almost entirely during my memory. Those who were once known for their wealth, have passed away, and the leading men now were poor working men when I was young." This may be said of almost all our cities and towns.

SOUTHERN RECUPERATION.—Late English journals mention the fact that heavy orders have just been received from the Southern States for iron rails to repair the railroads destroyed or damaged during the war. The business interests of South Wales were likely to be largely benefitted by the demand.

DRY GOODS.—Trade cannot be justly described as dull for the season, but it is certain that it is not so lively as our jobbers have been anticipating, and the natural result has been a willingness to accommodate buyers by a small reduction of prices in the leading articles of domestic manufacture.

The transactions in unbleached shirtings and sheetings have been on a very limited scale during the past week, and prices for some of the leading makes have fallen off about half a cent a yard. There has been rather more activity in bleached goods, particularly for the better qualities of shirtings, and prices are firmly maintained, but in the lower grades there has been less demand, and prices are a fraction lower. Stripes and ticks are a shade lower. The market is well supplied, and the demand but moderate.

Prints are in rather better demand, except for the dark colorings, which will soon be out of season. The new spring styles which have recently been put upon the market are unusually attractive, and command full prices. Ginghams are in improved request. Cambrics and jaconets are without change of rates. Very little is doing as yet in muslin de lanes. Prices are steady. Woolens are generally dull.

There is no marked improvements in the demand for cloths, but prices remain unchanged. Carpets are in good demand, and prices remain without change. The importations of English carpets are very large this spring. There is a very good business doing in imported goods.—*New York Independent.*

A HEAVY JOB.—We perceive that the Reverend James M. Simms, a Savannah negro, is on his travels North, having abandoned Washington, probably in disgust. He addressed a small fragment of the Anti-Slavery Society in one of the rooms at the Cooper Institute Friday night, his object being, as we gather from the speech, to induce the Society to interfere and abolish "the prejudice of caste" at the South! He intimated that Congress had been bored on this point but that little was to be expected of them. He reported three hundred outrages in Georgia, in which the blacks were the victims, and declared that the negroes of the State were "more depressed and despondent" than they were in a state of slavery. This is no doubt true of two classes among them, to wit: those who hate work (like Simms) and want to live on office, and those who expected freedom and the Radical party to bring them meat, bread and clothing without labor on their part. Simms is a political loafer, and unless negroes can get office in Georgia he will be reduced to the necessity of working or starving. There's the rub. And just so it is with all these peripatetic negro speechmakers. They are very miserable and despondent, while the great body of the negroes, who can never get office while these sharpers are ready to step in, are contented and laboring cheerfully for an honest living.

As Simms is North, we propose that he and his Anti-Slavery friends first try their hands on removing "the prejudice of caste" in that section; they will then be able to extend their missionary labors to the South with far better prospects of success.—*Sav. Republican.*

THE LARGEST BUILDING IN THE WORLD.—Persons who pass hastily over the Central Pacific Railroad hardly give a thought to the immense amount of work which has been performed by the company. From Sacramento to the present terminus of the road, at Elko, the trains are once more running regularly. The immense amount of money and labor expended in cutting through mountains, opening tunnels, grading the road and laying the track can with difficulty be realized by those not familiar with the business. Not the least of the problems to be solved was that of protecting the track from the heavy fall of snow which were to be anticipated during the winter months. To obviate this difficulty as far as possible the company determined to erect a series of sheds, or rather one building which should protect the road over the snow line. Accordingly they have erected a building which is doubtless the largest in the world. It is twenty-two miles in length, sixteen feet in width and sixteen feet in hight, not including the pitch of the roof. It is put up in the most substantial manner, all the timbers used being of the best quality to be obtained. The sides are inclosed, and were it not for the fact that daylight penetrates through the interstices between the boards, the whole affair would be very like a huge tunnel. The building is braced together in a most peculiar manner, and is, in addition, firmly bolted to the rocks near the face of the cliff. Where snow-slides are to be feared, an extension of the roof has been carried to the cliffs, so that falling masses shall pass over the building and lodge upon the other side. In many places where side tracks are located, the building is wider than the figures given above.—*Alta Californian, Feb. 26th.*

☞ The White Pine Silver Mines, on the borders of Nevada and Utah, still continue to attract large numbers of persons from all parts of the Pacific States. The excitement is reported to exceed that which prevailed at the time of the discovery of the Washoe Mines. Fifty companies have been formed in San Francisco to explore the White Pine region, and crowds of miners, shopkeepers, speculators, and gamblers are rushing along the Central Pacific railway to Elko, the eastern terminus, where stages are taken. There are not enough houses at the White Pine Mines to accommodate the daily increasing population, and the persons living in tents have been suffering severely from exposure to the cold, and from scarcity of provisions besides. The district covers fifty square miles, and already contains three towns, the chief of which is called Hamilton. The silver ore is in the form of chlorides and sulphurets, and is found in flat sheets, imbedded in magnesian limestone. The ore is reported to be very rich, worth in many cases $12 a pound, but generally from $3,000 to $5,000 per ton. The mines were only discovered last autumn, and large amounts of bullion have already been and still continue to be sent to San Francisco. The usual presentation of the ore renders it difficult to stake out the claims on the plan heretofore adopted, and serious disputes have arisen between the miners, the shafts having been sunk very near each other. In the same neighborhood there are also to be found numerous veins of argentiferous lead and copper, said to be very valuable, but the mountains containing them are, in comparison with the White Pine, only called the Base Metal Ridge.

NORTHERN PEOPLE DOWN SOUTH.—Speaking of the number of Northern people who have already sought an asylum in the South during the spring, and of those who propose coming, the New York Times says:

"We have discouraging accounts from private sources, from those who propose going South for a milder climate during the raw and inclement season of our spring. There seems to be no room there, as every place is already full! Passengers from Savannah by boat to Florida, very frequently return in the same boat because they can find no accommodations whatever. Invalids from the North already occupy every available house in all the available towns of that vicinity, as of nearly every other in the Southern States. Even in Savannah, where the hotel accommodations are better than in most Southern cities, and where the climate is not especially inviting, guests are constantly turned away for the lack of room. Our Northern people must buy Southern places for their winter residence, and fortunately the chances to do so on favorable terms are very abundant. That thousands of our citizens will avail themselves of them we have no doubt."

☞ A clergyman in Hannibal, Missouri, having been interrupted in the performance of divine service by some disorderly boys, who persisted in "talking out in meeting," descended from the pulpit and gave the youngsters a sound cuffing over the ears, after which he was allowed to proceed in peace.

ASSOCIATED PRESS DISPATCHES

FROM WASHINGTON.

CONGRESSIONAL.

WASHINGTON, March 25.—SENATE—Mr. Rice introduced a bill restoring Republican Government to Georgia.

A motion to consider it failed, 40 to 15.

A bill providing for the re-distribution and issue of an additional fifty millions of National currency, was considered without action.

Amendments to the National Junction Railroad, connecting North and South with roads around Washington, was adopted, and goes to the President.

Senate adjourned.

HOUSE.—A joint resolution restoring jurisdiction of the Court of Claims to cases of citizens of loyal States for vessels impressed during the war, passed, 80 to 87.

Upson replaces Poland on the Reconstruction Committee.

A bill restoring republican government to Georgia was introduced, and referred to the Reconstruction Committee

It reassembles the original Legislature, and imposes the test oath qualification, and declares the expulsion of the colored members void.

The Mississippi case was resumed, but laid aside for the Tenure-of-Office bill, which, after strong debate, was referred to the Judiciary Committee—95 to 79. Only ten Democrats voting in the negative.

Adjourned.

Customs for the week ending 20th, four millions, one hundred and fifty-six thousand dollars,

The President nominated Edward L. Plumb as Consul General at Havana.

Alonzo P. Cornell, surveyor of customs at New York.

E. A. Merritt, naval officer at New York.

Jules Ennomos, assessor of third Louisiana district.

WILMINGTON, N. C., March 25.—The wreck referred to in a dispatch of the 24th proves to be that of the brig Model, of Portland, Maine, bound to Savannah. The crew was picked up by the schooner Kate Rich, and brought to this port to-day. The vessel was a total loss.

NEW ORLEANS, March 25.—Upon the statement of the State Senator Lynch, State Treaurer Dubuelet, and his chief clerk, relative to warrants drawn by Auditor Wickliffe, and payment of coupons fraudulently issued, the Grand Jury to-day found a bill against the Auditor for misdemeanor.

The fraud appears to have been discovered January last, but upon being confronted with it, the Auditor refunded the amount of the coupons—two thousand dollars—and no disclosures were made till the 23d inst. Senator Lynch giving as reason that he fears it will effect the credit of the State. The Auditor vacated his office to-day, and the Governor has appointed L. T. DeLarsize, a colored man, member of State Board of Education, as acting Auditor.

THE MISSING UNITED STATES MARSHAL.—It is now considered no longer a matter of doubt that —— Dickson, United States Marshal for Georgia, has absconded and gone to parts unknown. The general impression here, how received we know not, is that he has gone to Cuba, but we doubt it.

After diligent inquiry, we have been wholly unable to learn to what amount the government and private parties have suffered from lhis defalcation; the loss is generally believed, thongh, to be quite heavy. Those who are best acquainted with his business affairs and course of life do not believe that he took any considerable sum with him. Between several losing private enterprises and fast living, very large amounts, considerably beyond his income, were doubtless absorbed, and the day of reckoning approaching without ability on his part. His official bond is signed by two of the "solid men" of Savannah, and calls for twenty thousand dollars, beyond which his indebtedness will prove a total loss.—*Sav. Republican, 24th.*

CERTIFIED CHECKS A NECESSITY.—The recent act of Congress forbidding banks organized under the national banking law to certify checks in advance of actual deposits have had an effect which its framers possibly did not anticipate. Some of our Wall-street institutions doing a large business with stock-brokers, which makes it necessary to certify their checks in the manner now rendered illegal, have resolved to wind up as national banks and reorganize under the State law. The requisite preliminary steps have already been taken by the City Bank, the Fulton Bank, and the Bank of North America, and others are considering the propriety of doing the same. The chief difficulty in the way is the tax imposed by the national law upon State bank circulation, but with institutions which issue few or no notes this is of small importance.—*N. Y. Sun.*

A LUSUS NATURÆ.—Mr. Clark, of Charles City county, brought to this city yesterday a well grown colt, three years old, which was foaled without the caudal appendage common to horses. There is no sign of a tail except a tuft of hair, some twelve or fifteen inches long, growing from the extremity of the spinal column. He is at Westcott's stable on Franklin street and will, we learn, be exhibited by his owner. *Richmond Dispatch.*

A company has been organized to build a railroad from Gallatin to Murfreesboro, Tennessee.

ATLANTA, GEORGIA:::: MARCH 26

Local and Business Notices.

NOTICE.—Col. T. M. Acton, is the duly authorized traveling Agent of THE CONSTITUTION, and we commend him to the attention of our friends wherever he may go in behalf of our interest.

GEO. SHARP, JR., THE LIVE JEWELRY STORE—Has just received the Largest Stock of fine Watches, Diamonds and Jewelry ever imported to this market, at the most reasonable prices. mar25-d1m

GILBERT'S TROUPE.—We learn that Gilbert's celebrated troupe will be in Atlanta next week. They have been performing in Southwestern Georgia, to crowded houses.

THE LADIES are especially invited to call and examine the stock of Dress Goods at Phillips & Flanders, Whitehall street. march21-d6t

SALE TO-DAY.—Col. G. W. Adair will sell at three o'clock this afternoon, a very desirable cottage and lot, on the corner of Elliott and Thurmond streets.

GEO. SHARP, JR., THE LIVE JEWELRY STORE.—I have One Hundred Gold and Silver Watches of all grades and prices, from Eight Dollars up to Four Hundred. mar25-d1m

BOUND OVER—Pankey, Martin and Heppey, have been bound over for their appearance before the United States Court, to answer to the charge of passing counterfeit money, in the sum of $5,000 each. They will probably give the bond to-day.

SALT.—Messrs. Purse & Thomas, of Savannah, offer a large lot of salt for sale.

HUNNICUTT & BELLINGRATH.—Messrs. Hunnicutt & Bellingrath's store is the headquarters of plumbing, gas-fitting, steam pipes and fitting, copper and tin work, in the highest style of the art. They have experienced workmen who never fail to do good and perfect work. Besides this, Messrs. Hunnicutt & Bellingrath keep a supply of stoves, tin ware, pumps, and house furnishing goods always on hand, at reasonable prices. Their reputation for integrity and fair dealing is known throughout the country, for they are old and well-tried dealers.

GEO. SHARP, JR., THE LIVE JEWELRY STORE—Has just received the Largest Stock of fine Jewelry, all gold, ever seen in Atlanta, all at New York prices. He keeps nothing but all gold Jewelry. mar25-d1m

COTTON FACTORY.—We are pleased to learn that Messrs. H. I. Kamball, J. C. Peck, John Rice and others, are moving vigorously in the matter of erecting a Cotton Factory in this city. They propose starting a Factory Company, with a capital of $300,000, and to erect a factory with a capacity of ten thousand spindles, inside of the city limits. We trust our City Council will exempt them from taxation for at least ten years. The amount of real wealth brought into the city by this company, will more than double the amount that might be received from taxes.

PRIME TIMOTHY HAY.—100 Bales Timothy Hay. 500 Bushels good White Corn. Just received and for sale at low figures by mar25-d2t ADAIR & BRO.

OFF FOR FLORIDA.—Company E, Artillery, of the U. S. forces stationed here, left yesterday evening by the Macon and Western Railroad for St. Augustine, Fla. They were evidently "spiling for a fight," as two of them had a rough encounter before leaving. By the way, has anticipated movements towards Cuba anything to do with their going to that point?

GEO. SHARP, JR., is a Watch-maker with Twenty-one years experience, and charges reasonable prices for his work, but does it well. All work guaranteed to give satisfaction. Jewelry repaired same as new. mar25-d1m

TOBACCO FACTORY.—Col. G. W. Adair, yesterday, sold a lot on Marietta street, to S. H. Holland, of Va., for $2,000. We learn that Mr. Holland contemplates erecting a Tobacco Factory that will employ some three hundred hands, and that he has let out the contract to Messrs. Alexander & Broomhead to build it. We cordially welcome Mr. Holland to Atlanta, and trust that the City Council will relieve his Factory from taxation for several years. Atlanta is bound to be a great manufacturing center.

HAMS.—We have a choice lot of country and Sugar Cured Hams, and full stocks of Bacon and Bulk Meats. LANGSTON, CRANE & HAMMOCK. march26-d3t.

REAL ESTATE SALES.—Yesterday evening Col. G. W. Adair sold the Crawford property, as follows: Lot 1, with 127 feet front on Terry street and running back 133 feet, having on it a two story brick house, for $2000; Lot 2, 61 feet front, 155 feet deep, with a two room house, for $1,201; No 3, 41½ feet front, 173 feet deep, $600; No. 4, 41½ feet front, 192 feet deep, $705.

FLOUR.—400 barrels on hand—put up in sacks and half sacks. We guarantee it to please. mar26-d3t. LANGSTON, CRANE & HAMMOCK.

TRUTH FITLY SPOKEN.—Brick Pomeroy fitly says: "Corn is scarce in the South, the demand being for thousands of bushels for the Northwest. How long will the people of that section be content to raise cotton for the benefit of New England manufacturers, rather than provisions for their own consumption. It strikes us as poor policy to starve oneself to death for the purpose of enriching enemies."

ALL kinds of Binding and Ruling don as cheap as the cheapest, by W. R. Hanlieter, Granite Block, Atlanta, Ga. march21-d.

CHAIR FACTORY.—Taylor, Barry & Yater, formerly of Rochester, N. Y., have opened a chair factory in Nashville, Tennessee. Several speeches were made on the day of opening by distinguished Tennesseeans, but one only was *chair'd*.

GEO. SHARP, JR., THE LIVE JEWELRY STORE—Has bought for gold a large assortment of fine Watches, adjusted for Railroad men. These Watches are warranted perfect time keepers, and can only be had in this city at his store. mar25-d1m

PHILLIPS & FLANDERS, Whitehall street, have just received a large and well selected stock of Ladies' Shoes. march21-d6t.

HATS, Shoes, Staple and Fancy Dry Goods, at Phillips & Flanders, Whitehall street. march21-d6t.

BLANKS.—Sheriff's Deeds, Sheriff's Forthcoming Bonds, Superior Court Subpoenas, Land Deeds, for sale at this Office. mar6-dtf

POTATOES.—Just received, 50 barrels Pink Eye and 50 barrels Peachblow Potatoes. For sale low. LANGSTON, CRANE & HAMMOCK, mar26-3t. Alabama St.

AN IMPORTANT DECISION.—The Supreme Court of the United States recently in its decision on the Legal Tender Act, laid down the following propositions as the law of the land.

First—That whether the Legal Tender Acts be Constitutional or otherwise, contracts which provide for payment in coin will be enforced in conformity with their stipulations; and

Second—That judgments may be rendered for amounts in coin, which cannot be satisfied otherwise than by payment in coin, and may be enforced by execution, on which coin only shall be collected.

"THE LIVE DRUG STORE."—French and American Window Glass, White Leads, Linseed Oils, Machine, Tanner's and other Oils. march19-dtf. REDWINE & FOX.

ANOTHER FISH STORY.—The editor of the Knoxville Press and Herald, acknowledges the receipt of two photographs of Master John Fish, the big baby of Hawkins county, Tennessee. The young gentleman is 20 months old, and weighs fifty-one pounds. He wears a hat of seven and a quarter measure, close fit. In one of the pictures sent he is sitting upright, with his hat jauntily on his head, and as the correspondent says, looks as "saucy as Maj. Tom O'Conner, on St. Patrick's day." In the other, he is represented as "taking his grub" and no Berkshire, at the breast, ever presented half so self-satisfied an appearance.

LADIES' White Kid and Bronze Slippers, Cloth, Congress, and Lace Boots, Children's Shoes, of all kinds, just received. G. H. & A. W. FORCE, Whitehall street. mar26-d3t.

NEWTON COUNTY.—It is estimated that $450,000 worth of fertilizers has been received at Covington Depot within the last few months. If this be applied to corn, what immense benefit will it be to that county.

"THE LIVE DRUG STORE."—50 gross Mason's Blacking; 100 dozen Paint Brushes; Painter's material of every kind. mar19-dtf REDWINE & FOX.

LARGE SALE OF LAND.—A citizen of this place has sold to a gentleman from Baltimore, a tract of land in Logan and adjacent counties, in Western Virginia, containing 50,000 acres, for 25 cents per acre. The land is of the finest quality, heavily wooded, and some of it a plain. A short time since another citizen of this place disposed of a large tract of land in the same section, realizing rome $30,000.—*Alexandria (Va.) Gazette, March 16.*

OUR NEW JOB OFFICE.—We have an entire new JOB OFFICE, embracing presses, types, borders, cuts, rules, and everything pertaining to a complete outfit.

We are prepared to fill all orders for plain, fancy and ornamental work, in the neatest style, on the shortest notice, and at the lowest living rates.

We respectfully solicit the patronage of our friends and the public generally.

TAKE NOTICE.—At a special meeting of the Mayor and Council this evening, the following resolutions were adopted:

Resolved, That taxation being the main source whence the city derives its revenue, it is the unalterable determination of this Council to execute the laws relating to taxation vigorously, without regard to persons or circumstances.

Resolved further, That the sooner the municipal tax payers are made sensible of the fact that no longer indulgence will be extended to defaulters the better it will be for all parties concerned.

Resolved That ignorance of the law is an excuse which defaulters need not expect this Council to recognize in future in any instance.

Resolved, That the Marshal is hereby instructed to proceed to collect the taxes now due the city according to law.

Passed in Council 23d March, 1869.
A true extract from the minutes.
S. B. LOVE, Clerk.

It will be seen from the above proceedings of Council that it is made my duty to proceed at once to collect all taxes that have been placed in my hands. I have a large number of Executions for special tax upon sales for the year 1868, some for four quarters, some for three and some for two, also for one, all ending on the 31st of December, 1868. I have also a large number of executions levied upon real estate for general tax for 1868, which will be sold on the first Tuesday in April next, if not paid before. I hope all parties interested will take due notice and govern themselves accordingly. Capt. R. H. Norris will be found at my office daily from 9 o'clock, A. M., till 12 o'clock, and from 2 o'clock till 5 o'clock, P. M., untill day of sale, for the purpose of receiving the tax, and in the meantime I shall wait on the merchants at their stores for the purpose of receiving their tax upon sales up to the 1st of January, 1869. I trust that no one will put me to any trouble, as I must do my duty.

mar25-d4t JOHN THOMAS, Marshal.

A GOOD DEFINITION.—In the House of Representatives, Mr. Upson defined the meaning of a *prima facie* case, in the language of a Vermont judge, as being a case that was good on its face and bad in its rear.

☞ The tobacco crop of this county seems to be in motion. We see more or less of it every day passing through town in transit to the several warehouses of the county. Has been sold at prices varying from $8 to $10. The crop will prove the heaviest grown in this county for several years, and, the prices being remunerative, a great deal of money will be brought into circulation through its agency. We are not informed as to the market it is generally seeking, but presume Clarksville, Louisville and Paducah are each getting a share. They certainly deserve it. For the names of the best warehouses in either city, we refer to our advertising columns. *Paris, Ky., Intelligencer.*

☞ Constitutions and laws in these times are like turnpikes—made to be trampled on.

CLERKS, Ordinaries, and others of our friends in the various counties, will undoubtedly find it to their interest to send their orders for blank books to W. R. Hanlieter. State in the order the number of quires, size of paper, and style of binding, and, our word for it, satisfaction will be given, in both price and workmanship. march21-d.

☞ A cotton factory is being erected near Columbia, Henry county, Ala.

READ, O WOMAN!—As health is the greatest blessing on earth, so is disease the greatest curse. The first wish of the heart, therefore, in a temporal view, should be health. Nor is this all. As disease renders us unfit to perform the various duties appropriate to our station in life, there is a moral obligation resting upon us to preserve our physical integrity, by using the means at hand for repelling disease.

Now there is nothing so destructive to health in females as a continued *suppression of the menses* It is a condition which makes a woman useless to herself and a burden to her friends. Dr. J. Bradfield's *Female Regulator, Woman's best Friend,* is the only certain cure. Lose not a moment in embracing the remedy. feb14-tf

DR. JOHN BULL'S Great Remedies.

DR. JOHN BULL,
Manufacturer and Vendor of the Celebrated

Smith's Tonic Syrup,

FOR THE CURE OF
AGUE AND FEVER,
—OR—
Chills and Fever.

The proprietor of this celebrated medicine justly claims for it a superiority over all remedies ever offered to the public for the safe, certain, speedy and permanent cure of Ague and Fever, or Chills and Fever, whether of short or long standing. He refers to the entire Western and Southwestern country to bear him testimony to the truth of the assertion, that in no case whatever will it fail to cure, if the directions are strictly followed and carried out. In a great many cases a single dose has been sufficient for a cure, and whole families have been cured by a single bottle, with a perfect restoration of the general health. It is, however, prudent, and in every case more certain to cure, if its use is continued in smaller doses for a week or two after the disease has been checked, more especially in difficult and long-standing cases. Usually, this medicine will not require any aid to keep the bowels in good order; should the patient, however, require a cathartic medicine, after having taken three or four doses of the Tonic, a single dose of BULL'S VEGETABLE FAMILY PILLS will be sufficient.

Bull's Worm Destroyer.

To my United States and World-wide Readers.

I have received many testimonials from professional and medical men, as my almanacs and various publications have shown, all of which are genuine. The following letter from a highly educated and popular physician in Georgia, is certainly one of the most sensible communications I have ever received. Dr. Clement knows exactly what he speaks of, and his testimony deserves to be written in letters of gold. Hear what the Doctor says of BULL'S WORM DESTROYER:

VILLANOW, Walker Co., Ga., June 29, 1866.

DR. JOHN BULL—Dear Sir: I have recently given your "Worm Destroyer" several trials, and find it wonderfully efficacious. It has not failed in a single instance to have the wished for effect. I am doing a pretty large country practice, and have daily use for some article of the kind. I am free to confess that I know of no remedy recommended by the ablest authors that is so certain and speedy in its effects. On the contrary, they are uncertain in the extreme. My object in writing you is to find out upon what terms I can get the medicine direct from you. If I can get it upon easy terms, I shall use a great deal of it. I am aware that the use of such articles is contrary to the teachings and practice of a great majority of the regular line M. D.'s, but I see no just cause or good sense in discarding a remedy which we know to be efficient, simply because we may be ignorant of its combination. For my part, I shall make it a rule to use all and any means to alleviate suffering humanity which I may be able to command—not hesitating because some one more ingenious than myself may have learned its effects first, and secured the sole right to secure that knowledge. However, I am by no means an advocate or supporter of the thousands of worthless nostrums that flood the country, that purport to cure all manner of disease to which human flesh is heir. Please reply soon, and inform me of your best terms. I am, sir, most respectfully,

JULIUS P. CLEMENT M. D.

Bull's Sarsaparilla.

A Good Reason for the Captain's Faith.

READ THE CAPTAIN'S LETTER AND THE LETTER FROM HIS MOTHER.

BENTON BARRACK'S, Mo., April 30, 1866.

DR. JOHN BULL—Dear Sir: Knowing the efficiency of your Sarsaparilla, and the healing and beneficial qualities it possesses, I send you the following statement of my case.

I was wounded two years ago—was taken prisoner and confined for sixteen months. Being moved so often, my wounds have not healed yet. I have not set up a moment since I was wounded. I am shot through the hips. My general health is impaired, and I need something to assist nature. I have more faith in your Sarsaparilla than in anything else. I wish that that is genuine. Please express me half a dozen bottles, and oblige,

Capt. C. P. JOHNSON,
St. Louis, Mo.

P. S.—The following was written April 30, 1866, by Mrs. Jennie Johnson, mother of Captain Johnson:

DR. BULL—Dear Sir: My husband, Dr. C. S. Johnson, was a skillful surgeon and physician in Central New York, where he died, leaving the above C. P. Johnson to my care. At thirteen years of age he had a chronic diarrhoea and scrofula, for which I gave him your Sarsaparilla. IT CURED HIM. I have for ten years recommended it to many in New York, Ohio and Iowa, for scrofula, fever sores and general debility. Perfect success has attended it. The cures effected in some cases of scrofula and fever sores were almost miraculous. I am very anxious for my son to again have recourse to your Sarsaparilla. He is fearful of getting a spurious article, hence his writing to you for it. His wounds were terrible, but I believe he will recover.

Respectfully,
JENNIE JOHNSON.

BULL'S CEDRON BITTERS

AUTHENTIC DOCUMENT.

ARKANSAS HEARD FROM

Testimony of Medical Men

STONEY POINT, White Co., Ark., May 23, 1866.

DR. JOHN BULL—Dear Sir: Last February I was in Louisville purchasing drugs, and I got some of your Sarsaparilla and Cedron Bitters.

My son-in-law, who was with me in the store, has been down with rheumatism for some time, commenced on the Bitters, and soon found his general health improved.

Dr. Gist, who has been in bad health, tried them, and he also improved.

Dr. Coffee, who has been in bad health for several years—stomach and liver affected—he improved very much by the use of your Bitters. Indeed, the Cedron Bitters has given you great popularity in this settlement. I think I could sell a great quantity of your medicines this fall, especially of your Cedron Bitters and Sarsaparilla. Ship me via Memphis, care Rickett & Neely.

Respectfully,
C. B. WALKER.

A Teutonic View of the Situation.

A German railroad friend of ours has given his views on the situation, which we think worth reproducing. He says:

Dis gontry is von grate gontry, but de troobles is so much greader as de gontry, vich is gread as never vas. Seemoor und Plair—dat's vot kind ov man I vas, und now I bees de same dings vot I never vas before. Ven I come to dis gontry, twelf years ago, I finds beace und blendy, und nickers vas wort a tousand dollars, und now dey ain't wort a tam. Conflict of State and National Courts in Iowa.—In 1860, J. Edgar Thompson, of Pennsylvania, obtained judgments in the United States Court for the Northern District of Illinois for $9,000 against the Supervisors of Lee county, Iowa. The Supreme Court of that State issued an injunction restraining the supervisors from levying a tax to satisfy the judgment, on the ground that the law authorizing the issue of the bonds upon the coupons of which the judgments were obtained, was unconstitutional, notwithstanding it had been several times before decided entirely constitutional by both the State and Federal Courts. Last July Judge Drummond, of the Northern District of Illinois, issued an alternative, and upon its being disobeyed, in October a peremptory, mandamus to the Board of Supervisors to at once levy the tax. This being disobeyed, he, in January, ordered an attachment for contempt to issue. On the 2d inst. the U. S. Deputy Marshal for Iowa arrested the Board, but he was immediately served with a writ of *habeas corpus* requiring him to produce the bodies of the Board before Judge Beck, of the Supreme Court of Iowa. The marshal refused, of course, to obey; whereupon a motion was made by the counsel of the Board to empower the Sheriff to forcibly take them from the custody of the marshal. This motion, after a two days' argument, was granted; so the United States marshal was forced to make return that he was unable to enforce the writ of attachment. Judge Beck takes the ground that after judgment all proceedings in Judge Drummond's court were null. Unless the latter shall use a force superior to that which the Supreme Court of Iowa can command, the decisions and orders of the highest courts of the United States must stand completely nullified until the case can be taken to the Supreme Court on a writ of error, the decision reversed, and a *procedendo* sent back to the Supreme Court of Iowa, when Judge Beck says it will be obeyed.—*Chicago Journal, March 10th.*

Remarkable Collision on the Louisville and Nashville Railroad.—At 1:55 o'clock yesterday morning, railroad time, as the up train from Nashville, Frank Sterling, engineer, was nearing Elizabethtown, something very remarkable happened. The train was probably within two miles of Elizabethtown and was going at the rate of thirty-five miles an hour, when all of a sudden the headlight of the locomotive vanished, leaving nothing but the showers of sparks from the smokestack to light the way. The engineer at a loss to account for the disappearance of the light, which had apparently been "snuffed" out by some invisible hand, reversed the engine, whistled "down brakes" and train stopped. Immediately he began an investigation, and found that a hole, six inches in diameter, had been made in the front glass, round, and apparently made by a large pistol ball. The chimney of the lamp was broken, and thrusting his hand into the compartment, to his astonishment, his fingers touched something that seemed to be a bird crouching in one corner. He drew it forth, and upon examination found it to be a jack-snipe. The bird was alive and did not appear to be in the least hurt by its collision with the locomotive.

The fact of the bird being uninjured is accounted for by its exceeding swiftness. At this time of the year it emigrates from the South to the North, and is said to pass through the air at the rate of sixty or seventy miles an hour. The bird then, must have been making better time than the locomotive, so that all the force of the iron monster was lost on the little feathered wanderer of the air.

He is now in the possession of Mr. Jas. Murphy, the fireman, and is said to be doing well. It is hard to believe that his snipeship escaped with so little harm. No doubt, if the truth were known, he experienced at least a mild headache for a short time after the collision. Railroad men never will quite admit that any one or any thing is injured.—*Louisville Courier-Journal.*

☞ The following is an extract from a private letter written by the proprietors of the Plantation Bitters:

"We had no conception of the widespread suffering which exists, or of the almost infallible cures produced by the Plantation Bitters, when we first commenced offering them for sale. We now find that every house has a weak child, an ailing parent or debilitated aged member, who needs this Tonic. Our Laboratory has grown from a single room to an immense building, and our sales from a few bottles to many hundred dozens per day, and we are glad to know that they have done you so much good.

In Luck.—The Local Editor of The Atlanta Constitution has been made the recipient of a gold pencil from members of the Senate, as "a testimonial of their high appreciation of the correctness of his reports of its proceedings, and of his courtesy towards its members." We congratulate our local on his good fortune, and are happy to know that at least some of the members of the Legislature are disposed to make a good disposition of a portion of their per diem.—*Augusta Press.*

DARBY'S
Prophylactic Fluid.

Letter from Hon. Alex. H. Stephens, of Georgia
CRAWFORDSVILLE, GA., Sept. 29th, 1866

Darby's Prophylactic Fluid is an article of little cost, but great value. Its domestic as well as medical uses are numerous, while its specialities are most wonderful. I have not been without it for ten years, and no head of a family who can afford to have it should be without it.
ALEX. H STEPHENS.

The Wonderful Family Medicine.

Letter from the Surgeon General of the late Confederate States.
RICHMOND, VA., Jan'y 14, 1868.

John Darby & Co., No. 160 William St., N. Y.

Gentlemen: I have received your letter of the 15th of December, 1866, calling my attention to your (Darby's Prophylatic) Fluid.

I most cheerfully state that the Fluid was furnished to, and extensively used by the Surgeons in charge of General Hospitals in the Confederate service with great benefit to the patients—all the surgeons making a favorable report—a great deal of it was used in the hospitals.

Very respectfully, your ob't serv't,
SAM'L PRESTON MOORE, M. D.

THE ASTONISHING DISINFECTANT.

EMORY COLLEGE, OXFORD, GA.,
December 28th, 1868.

Prof. Darby: Dear Sir—Having not been engaged for many years in the active duties of the Medical Profession, I am only superficially acquainted with the claims of your Prophylatic Fluid, but am well acquainted with its chemical elements.

While, therefore, I cannot speak experimentally of the value of the compound, yet the disinfecting and Therapeutic properties of the agents employed in its composition, together with the well known reputation of its discoverer, as a chemist, authorize me to regard its merits as of a high order;—on the whole it must be considered as a valuable contribution to the class of articles to which it belongs.

These views, I may add, are sustained by the testimony of many competent judges, who have tested its properties.

Believe me, dear sir, yours respectfully,
A. MEANS, M.D., LL.D.

ALABAMA INSANE HOSPITAL,
TUSCALOOSA, December 22, 1868.

Messrs. John Darby & Co., 160 William St., N. Y.

Gentlemen:—I received your Circulars of the 10th inst, asking an expression of opinion from me as to the merits of your Prophylatic Fluid. The preparation has been so generally used by the profession and public at large, and so universally esteemed, that it seems to me to need no further recommendation.

As a Disinfectant, and remedial agent too, when indicated, it is not excelled by any similar preparation. We use per-manganic preparations very extensively in this Hospital, and could not do without them. I consider yours the best and most elegant preparation of the kind manufactured. Respectfully yours, &c.,
P. BRYCE, M. D.,
Sup't and Phys'n Ala. Insane Hospital.

A Perfect Pain Killer.

WESLEYAN FEMALE COLLEGE,
STAUNTON, VA., Jan. 9, 1869.

Prof. Darby:—When I was President of the LaGrange Female College of Georgia, I used your Prophylactic Fluid in the College with decided success. Both as a disinfectant and as a remedy for sores and burns, etc., it was efficacious and proved to be what it is represented. Every family and public Institution ought to have it. I wish you great success in the sale of it.
WM. A. HARRIS, D.D.
Pres. W. F. College, Staunton, Va.

Never was there a family medicine so highly recommended as this. Try it and you will never regret it.

Let every country merchant visiting New York this Spring put this article in his list. But dont wait—Order at once.

And so we might fill this entire paper with recommendations from the very best men in the country.

There is no question that this is a most wonderful and useful article as a disinfectant, and for wounds, sores, burns, poisons, colic, as a tooth wash, general purifier, &c., &c.

Every Druggist or Country Merchant has it for sale.

TESTIMONIALS:

We select the following extracts for the benefit of those who have not used Rhodes' "Standard" Manure:

S. Wyatt, Esq., of Allington Plantation, near Waynesboro, Ga., writes as follows to Messrs. B. M. Rhodes & Co.:

"Your Phosphate I am highly delighted with; I gave it a fair trial along with several other Standard Manures, and I regard it fully equal if not superior to the best of them. On one field of 100 acres, that I am sure would not, in its natural state, have produced over 400 lbs. of seed cotton to the acre, I have already gathered 700 pounds, and think I shall get fully 200 pounds more.

"Two other fields of 100 acres, better land, I have gathered, at two pickings, over 1,000 pounds to the acre of seed cotton, and think I shall get 200 pounds more.

"I tried it, also, on corn, and found it very good, but not equal in its results to the cotton crop. Several of my neighbors, whose lands adjoin my own, and is pretty much the same character of land, who used no fertilizer at all, have signally failed, making no more than half a crop, if so much as that. Where I applied Rhodes' Phosphate the cotton was heavily fruited, bolls larger, the staple longer, stouter and better than where none was used, so much so that any one, even though he may never have seen the growth before, could readily see it. The only objection to it is, it causes the cotton to open faster than we can possibly gather it—at least, such is my experience."

T. C. Howard, Esq., of Darien, Ga., writes as follows:

"It is proper that I should say the results of the use of your fertilizer have been very marked and indeed surprising. I have made more cotton by its aid on worn out land, that has not been in cultivation in two years past, than I have been able to do on the best swamp or bottom land on my place in Mississippi."

ATHENS, GA., January 28, 1869.

Messrs. P. P. Pease & Co., Atlanta: I applied the two tons of Rhodes' Super-Phosphate, which you furnished me last year, at the rate of 400 pounds to the acre, on thin land, considerably exhausted by continued cultivation, without manure, and have no hesitation in saying that it is an excellent fertilizer for cotton. On the eight acres to which I applied it, I picked upwards of 8,000 pounds of seed cotton—more than double what the land would have produced without the fertilizer. It is also proper to mention, that while the caterpillars stripped all the leaves and young bolls off an adjoining patch, manured with Dickson's Mixture, commencing their ravages in August, they did not attack that manured with Rhodes' Super-Phosphate until the first week in October.
WILLIAM M. BROWNE.

Thousands of certificates and letters could be published, showing the value of Rhodes' "Standard," a quick and permanent fertilizer.

HOW TO UTILIZE THE OAK FORESTS
—OF THE—
SOUTHERN STATES.

THE Undersigned is now ready to grant Licences or to sell Factory or Territorial rights for the use of his Improved Appliances for the Manufacture of Imperishable Concentrated Extract from Oak Bark, for Tanning and Coloring purposes, requiring them for either a small royalty or a reasonable consideration for excelsior rights.

A Factory complete in all its appointments, capable of manufacturing 30 barrels of Extract every 24 hours—will cost Eight Thousand Dollars, not including cost of motive power, which may be of Steam or Water, and of 25 Horse Power.

A Factory of half the capacity, or 15 bbls per 24 hours, will cost Five Thousand Dollars. While a Factory capable of producing from 12 to 15 bbls per day—will cost, not to exceed Three Thousand Dollars.

The above estimates include cost of Building, Tanks—which are of wood—Mill, Condensing Appliances, and every requisite save motive power, which may be of Water or Steam, and of from 15 to 30 horse power as per capacity of Factory.

These new devices for Manufacturing Concentrated Extract are in practical use, and have the endorsement of the best judges as being the most perfect, simple and cheapest in use.

Competent men will be provided for putting these Factories in operation for those to whom lisences may be granted. All particulars may be learned by addressing,

For Sale at Auction!

THE BEST

HOTEL PROPERTY

IN THE SOUTHERN STATES.

I WILL offer for sale at auction, on the 16th day of April, next, on the premises, the property known as the WASHINGTON HALL PROPERTY, situated in the city of Atlanta, State of Georgia. Atlanta is located near the geographical centre of the State, and is at present the termination of four of the principal railroads of the South, viz.: the Western and Atlantic, passing through the mountains, and over which passes the produce and passengers of the Great West to Atlanta, and from Atlanta diverges the Georgia Railroad, leading to Augusta and Charleston, S. C.; the Macon and Western Railroad, connecting at Macon with the Central Railroad leading to Savannah, and the West Point and Montgomery railroad, leading to Montgomery and Mobile, Ala. There are also two other railroads in contemplation, viz., the Atlanta and Jacksonville Railroad, which is to be put under contract very soon, connecting with a road running to Decatur, Ala., and then connecting with the great Memphis and Charleston Railroad, forming a direct line from Memphis to Charleston, S. C., through Atlanta. The Air Line Railroad Company has lately been organized, and the work commenced and will soon be completed, forming an Air Line Railroad direct from New York to New Orleans. The Air Line from New York to Atlanta, connecting then with the West Point and Montgomery, forming the Air Line road to New Orleans, makes Atlanta the terminus of seven of the most important railroads in the Southern States. Atlanta, beside being a great railroad centre, is now the permanent capital of the State, and is unsurpassed for health, delightful climate and good water, by any city either North or South, and its rapid growth (having increased in population in less than three years from 5,000 to 28,000, and increasing in wealth in proportion, both of which is without parallel in the history of any Southern city, or very few of any other country), should be satisfactory evidence that capital cannot be more profitably invested anywhere than in Atlanta. The great want of a hotel of sufficient capacity to accommodate travelers that pass through Atlanta is still further evidence that it is the place of all others to invest capital in Hotel Keeping. The Washington Hall Property is most admirably located for that business, being situated within 60 feet of, and fronting upon the beautiful Park, and only 80 feet from the passenger Depot, thereby saving omnibus fare or expense of moving baggage; and fronting 160 feet upon the Park and extending 300 feet upon the Georgia railroad right of way, and being within 100 feet of the geographical centre of the city, and also of the business centre, makes it every way the most desirable unimproved property in the South for hotel purposes. The property will be sold for one third cash and the balance on six and twelve months. There is no place in the country, North or South, where building can be done cheaper than in Atlanta. The titles to the above property are indisputable, and the sale will be positive. WM. MARKHAM.
